FOREWORD

With the advent of medical science and technology we have a number of methods by which the diseases and disorders in the human body can be cured. Magneto therapy is one among such methods. Unfortunately, despite its effectiveness this therapy has not yet received a wide publicity. The method of its application for the cure from diseases is very simple and so with a very little information and guidance the patients on their own can make the best use of it. Being cheap, simple to operate and still very effective in its results it has raised hopes in the minds of the patients suffering from various diseases. It is my humble effort to make the people know this method of treatment and endeavour it to turn it to account for the welfare of mankind at large.

We know that heavenly bodies are full of magnetic power. On earth, we have the north and the South poles. This magnetic power also exists in the human body. It has been discovered that the magnets produce effect on the human body. Thus the magneto therapy is based on Scientific research.

After many Scientific Experiments the magneto therapy has deduced some basic truths which can be considered in the application of the therapy to cure the diseases and ailments in the patients. The method of its application being simple, this therapy is gaining popularity day by day.

There are many systems of treatment such as

Allopathy, Homeopathy, Ayurvedic & Unani. They are based on Scientific research and investigations. For the treatment under such therapies we have to depend on the experts or doctors who have the knowledge of such science. Such is not the case with magneto therapy. The method of its application being very simple, the patients can use it by themselves successfully. We have opened such centers where this type of treatment is given free of charge. In this book I have made an humble attempt to show what experiences have been gained and benefits received by the patients who received treatment under this therapy. The pictures given in this book are self explanatory and can convince the readers how cheap, easy and useful the treatment, under such therapy is. The pictures show how the application of this treatment is made in various ailments with the patients. With the help of these pictures the readers can use the magnets for themselves in the treatment of diseases.

An instances which occurred in my house on the 6th of April 1982 promoted me to take up to this therapy and try it on several other patients suffering from different diseases. It so happened that my wife received an electric shock at night on 6-2-82. She became nearly half conscious. The members of our family gave her first aid for about 20 minutes. They gave her blows on her body. Then we sent for Mr. D. V. Raverkar who has had training in Magneto therapy under Dr. Hiralal Bansal of Delhi. He put the magnets on the two affected fingers. This gave her a relief and the pain subsided within 10 minutes. Then the magnets were put on her limbs and back. The oil used in Electric transformer was also used in this treatment. For about 5 days there

was no special improvement; but on the sixth day and onwards she showed a considerable improvement and was at her daily work as usual.

The miraculous result with this sort of treatment gave me inspiration to obtain the magnets and try them in several other cases. Mr. Raverkar gave me address and I got the magnets from Delhi. He also gave me a little training and information on the use of magnets. Since then I have been trying this therapy on several patients who gave a favourable response and were cured of their ailments. I am therefore thankful to Mr. Raverkar for his kind guidance.

I express my gratitude to Shri Harnarayanji Dhoot Shri Gopilalji Sawana, Elpro International, Poona's Engineers Shri B. S. Chandakkar, Shri Ajitkumar Dhoot, Shri S. S. Motafram, Shri Gautam Bagchi, the retired Engineer Mr. B. G. Palsikar, Mr. Vithalbhai Patel of Ambalal, Munshi Foundation Pune, Dr. D. K. Tembhe Mr. M. G. Dharmadhikari of Pune and Dr. R. K. Mai a medical officer, for their kind guidance and information on this subject. I am thankful to Mr. Devendra Vora of Bombay who gave me the permission to print the pictures showing acupressure systems in human body. Besides the names mentioned above. I have to pay my regards to some more persons who helped me in this work. They are Mr. V. N. Madansure and Mr. S. R. Umale who gave me the information on magnets and magnetic fields. It is from these persons that I could learn about the magnets its properties and its use in the treatment of patients for the cure of their diseases. The most difficult work of translating this book written

(4)

in Hindi by me has been done by Mr. B. N. Mukharji Pleader and Mr. S. W. Soman and Mr. A. N. Kalvit had a final reading of this book to see if therewere any printing mistakes left.

It is my firm belief that the readers will surely find this book useful in acquiring knowledge of the magneto therapy. They can use the book as a guideline to help others adopt this method of treatment. I pray the Goddess Gayatridevi to bless those who undergo this treatment.

Blessed Opinion of Shri Gurucharan Sevanuragi Govindanand Saraswati Balswami

Shriman Punamchand Rathi, ever in the service of the people, by his untiring exertion and with the inspiration of service to the people, has made it admission in his life to eradicate human troubles through diseases.

the work undertaken by him is known as Magnetic treatment of diseases. This method of treatment may appear to many as a new method but it has to be noted that in the west noted experts have made investigations and published books, which are available in various languages. In our country also, in the older days, 'Rishis and Munis' have experimented by this method of which we receive reference in "Ayashantadyupachara Method" in which mention is made of Nagarjun Bhatti and Sushrutt etc. having used "Agnichikitsa" (Fire treatment,) 'Shitali Chikitsa (Cold treatment.) 'Mukha Mudra Chikitsa (Various Shapes of the face) Chumbaakiya Chikitsa (Magnetic treatment). 'Suryakant & Chandrakant' treatment. needle treatment extracts from herbage, liquor from various botanical products in nature, application as paste from various plants, and their decoctions.

The magnetic treatment is different from all these methods of treatment. It entails no pain, no bitter taste in the mouth by taking of extracts, no taboos as regards food etc. and cheap but its speciality lies in this that there are no adverse effects with every passing day thousands of patients through their experiences are

getting benefits. Many amongst them on their own have given in writing their favourable opinions.

To make this method of treatment popular in decision has been taken to publish a book so that advantage is taken by the common people.

Therefore, it is desirable that this treatment of Shri Rathi, gladdens the hearts of the patients, and serves like moon light in bringing solace to the ailing people. This is what I pray to God and 'Gurudeo'.

Bhaskarrao Joshi

Ganeshghat, Hyderabad.

Shri Punamchandji Rathi has done Preiseworthy efforts to serve the people by magnetic treatment. In these days, for the improvement of health, this is the easiest method of treatment which has been adopted by Shri Rathiji for free services, because of inspiration from Goddess Gayatridevi. I, myself and others who have been benefited by this treatment and we are proud of it.

I pray to God that Rathi's magnetic treatment gets popularity in the whole world and more and more people get the benefits from it.

I hope God will bless with long life so that he would be able to serve the humanity by this treatment for a long time.

I had the privilege to inspect 'Gayatri' Charitable Magneto Centre initiated by Shri Punamchandji Rathi. I have inspected by through travel in various parts of India, clinics of Dr. Hiralalji Bansal and his 'Guru' (teacher) R. S. Thakkar, Dr. punnuraj of Bangalore, D N. Khushlani of Calcutta, Dr. Navil Bangali of Bombay, Dr. Binitosh Bhattacharya of Naihati (w. Bengal) and have personally seen various methods of treatment and appliances used. However, in Shri Rathiji's clinic, the number of patients is more his appliances are cheaper and are devoid of side effects. Therefore these appliances are not harmful. But these appliances are to be used only for the time limit prescribed. In his clinic 60 to 70 liters of magnetic charged water is distributed daily. The treatment is also free. I pray to God for the prosperity of the charitable centre.

Dear Shri Rathiji,

I am lucky enough to have your introduction a year ago, your dealing in 'Magnetic Therapy' created curiosity in my mind. Since then, I visited your place many a time. I had opportunities to see many persons having various complaints and I discussed with them and was impressed to hear about radical relief to them

This inspired me to purchase various magnetic articles which are giving good results to keep me fit.

Your sincere efforts to treat both the poor and the rich free of charge and to add new magnetic articles every time are worth appreciation for the human service in his old age also.

May God bless you.

Yours faithfully.

Dt 12-4-84

I had the opportunity to see magnetic treatment centre of Shri Punamchandji Rathi. I had learnt earlier about the efficacy of Magnetic therapy from Dr. Jaiswal of Pune. It is because of his co-operation that natural yoge Magnetic Therapy Samiti was established in Maharashtra. I am the president of the said samiti . Therefore I was impressed by the co-operation of Shri Rathiji. He is not a believer of modern ideas. Yet, through extensive reading, deep thinking, experiments and intense feelings for service to others he is doing appreciable work in the field of magnetic treatment. Because of his knowledge of various reactions, his magnetic treatment centre has become scientific and impressive Specifically, his spiritual attitude, and intense feeling for human services having closely come

together, his work is proceeding in an ideal manner. Every day about 100 to 150 patients come of his clinic for magnetic treatment. The result of this treatment to chronic and elusive ailments is very good. Main thing is that he treats the patients free of charge. This is very creditable. If some special elusive diseases are treated by magnetic therapy after pathological examination and other patients are treated otherwise after pathological examination and records are kept, therefrom some scientific conclusions about its efficacy could be determined. The whole family of Shri Rathiji is devoted to this treatment. Thanks are due to them . I wish, heartily, success for this experiment.

Magnets Against Sickness and Pain

Back in the 60s Soviet scientists began research in the new field of Magneto Biology. Our Report Magnetic Treatments was first in the world on this fascinating topic (Still the only authoritative account). Recently big advances have come in USSR and other socialist countries over 2000 scientific reports have appeared. NN is glad to bring you the latest word from USSR medical research centre.

Photo at right shows gigantic superpower Soviet magnet, and also smaller medical treatment device. But most new magnetic treatment's use very simple magnets Reports.

Magnetic 'Healing' was used in ancient times, especially for inner pains, cramps in the limbs, ulcers, bleeding. In the last century Russian doctors (notably the great Botaxin) and French (Charcot) used magnets. Just before world war Two, Soviet research in perth (Dr. B. I. Kanntov) noted good result with difficult skin diseases, but the war stopped this work. About 15

years ago Magneto-Biology became a real science in USSR, and then progress was rapid.

At first, magnets were used to speed wound healing (after Operation); and to improve blood circulation in people stricken by serious blood -vessel disease of the legs.

Other doctors discovered marked beneficial effects of magnetic "fields" on bone, joints. This was so striking that careful studies were set up on animals **VERY STRONG MAGNETIC FIELDS HAD BAD EFFECTS ON BONE-TISSUE; MEDIUM AND LOW STRENGTHS PROVED VERY BENEFICIAL. HEALING OF INJURED TISSUES SPEEDED UP, SUPERIOR BONE-GROWTH FOLLOWED.**

Long test with continuous magnetic fields showed no harm to any organs or body tissues or functions.

Real excitement followed a near-tragic case; a noted soviet surgeon was very badly injured in an accident, and "open" fractures of his legs refused to heal. His colleagues were studying Magneto Biology and he agreed to try 'MAGNETIC TREATMENT' It worked dramatically, his bones healed.

Many other patients varified these affects; magnetic field; markedly reduces swelling after fractures; improve the 'blood Picture' speed formation of strong new bone.

SOON EXPERIMENTS PROVED THAT A NEW, SIMPLE FORM OF MAGNET, A FEXIBLES RUBBER STRIP COATED WITH MODERN METAL-POWER MAGNETS, COULD BE USED TO 'BANDAGE' MANY BODY AREAS. THIS IS EASY TO APPLY, REQUIRES NO EQUIPMENT, PROVIDES A STEADY

MEDIUM STRENGTH MAGNETIC FIELD, CLOSE TO THE SKIN.

Specialists in Kiev and other centres then tried this treatment method on difficult bone, muscle, nerve ailments, such as bursitis. In many cases they observed marked decrease in pain followed by improvement or real cures.

Soviet doctors stress to NN that magnets are no curealls. But their scope of treatment has greatly widened lately, with the discovery that magnetic fields can favourably affect the central and peripheral nervous system, involved in pain and many ailments, especially "chronic" ills.

Clinics in Czechoslovakia and Rumania now widely use magnetic treatments, especially on difficult skin diseases.

You see the situation in USSR from this fact; they have started serial production of 'pole-one' (shown in our photo) and 'Magnetophor' (Magnetic bandage) to meet the demand of treatment clinics in many branches of medicine, and such treatments are officially recommended by the USSR's Ministry of Health.

Newest discovery of Soviet doctors, biologists, pharmacy researchers, is 'Magneto-Pharmacology' science of using magnetic fields to improve the action of drugs and to decrease harmful after-effects.

Today, specialists in all countries study many things which influence drugs used on human beings; time of day, weather, patients mood, meals, liquid, etc. Magnets also change the effect of many drugs, especially widely-used drugs in ailments of the heart, nerves.

For example 'sleeping pills.' Such drugs, used along with medium-strength magnetic fields, give deeper sleep shorter but far more restful quicker waking. These effects are found in many patients but not all.

Drugs given for 'allergies' can be favourably affected by magnetic fields, and their side-effects lessened. Many drugs arouse 'allergic reaction' (sensitivity) in some people; this can be lessened with magnetic fields.

This is no quackery. Today bio-chemists are keenly aware of the scientific fact that all molecules are influenced profoundly by magnetic forces internal and external. Hence the use of such forces to change the biological action of complex drug molecules is scientifically rational.

JUST RECEIVED; NEWS THAT SOVIET SURGEON HAVE CLEARED DANGEROUS BRAIN BLOOD CLOTS, WITHOUT OPERATING, BY USING EXTERNAL MAGNETIC FIELDS. (NO DETAILS YET).

In Canada, Magneto-Biology is in its infancy. But even so, thousands of Western Canadian farmers are buying magnetic devices to treat seed-grain, with astonishing results. Such results were reported as long as 14 years ago, and Soviet farmers have treated with magnetic fields for many years.

Since old times man knew about the power of magnets. In Aryan culture, old sages had knowledge of magnets. To stop blood effusion and in various diseases of women, magnet was used. Even today, magnetic stone is found with saints and preceptors. If rubbed with magnetically charged water, dog bite has no effects. If powdered earth-magnet is taken with honey, stomach are cured. Clay-magnet if rubbed with water and applied to the forehead, head-ache vanishes. If magnet is rubbed on the area of pain in human body pain subsides. Since time immemorial magnet with various ideas have been in use.

In Russia, America, Japan, England, Rumania, Czechoslovakia and other countries, magnetic treatment is used on a large scale for the cure of ailments. They have received favourable results more than was expected. The magnetic treatment to plants also give good results, giving faster and healthy growth.

Not to know the power of magnet is ignorance. Magnet is not a living body but it has feelings. Magnet has power to attract iron and this creates magnetic attraction and power.

In 2580 B. C., a shepherd boy named 'Magnets', found a magnetic stone and because of this it was called magnet. In religious matter it was used. Rings of magnet were worn. If magnet is suspended in the air, it stands in the north-south direction. This is natural magnet by using electricity magnetic attraction can be created. This is artificial magnet having power for some time. Magnet having power to attract iron for longer time, is called stable magnet. Ordinarily, magnet is manufactured from iron. It is called magnetic iron. To produce magnets,

ferrous oxide and barium oxide are mixed and similarly, mixture of Aluminium, iron, cobalt and Nickel can be used. Man-made magnet can be made in different sizes and shapes. To measure the strength of magnet, Gaussmeter is used. Magnet creates magnetic field near it as per its strength.

SPECIAL MERIT OF MAGNET

- 1) Magnet shows north south direction of the earth.
- 2) At the extremities of the magnet, its power is greatest
- 3) Ends showing north and south are called north and south extremities respectively.
- 4) If magnet is broken, we find the north and the south poles at the two ends.
- 5) By attracting iron, magnet creates magnetic power in the iron.
- 6) North of the magnet shows its reaction. It serves as a killer of germs. South pole of the magnet enlivens life and, therefore, it shows its reaction as such. By the north pole of the magnet boils, nodes and skin diseases can be cured. Swelling in the body can be reduced by this. By the south pole, heat can be generated in the body which gives energy to the patients.
- 7) Similar poles repel, where as opposite poles attract.
- 8) From north pole proton and from south pole (electron atomic energy are produced).

The earth, the moon, the sun etc, and the human body are affected by magnetic power. Two poles of the earth attract the two poles of the magnet. Mariner's Compass; strip of magnet in the Mariner's compass is steady in the north and the south direction. North pole

of the magnet points to the geographic north pole of the earth and the south pole of the magnet, the south. Therefore the south of the strip of magnet being attracted towards the north pole of the earth shows the north direction. Alternatively, north of the strips shows the south direction. Like the earth human body is also a magnet. Upper half portion of the human body is the north pole of the magnet whereas the lower half is the south pole. Right side of the body represents north pole and the left side represents the south pole of the body. Similarly. The front side of the body represents the north pole of the magnet and the back side represents the south pole. magnetic power reveals itself from different poles. The results of the strength or power of the two poles are different. Magnetic treatment helps in the growth of animate beings and vegetation. Because of this, life span increases and diseases are checked. According to nature, normally, regular work every day helps. Since the olden days, when death is nearing, the body is kept with the head on the north and the legs on the south, amongst the Hindus, the reason being that there should be less pain to the dying person. on this question many experiments have been done in japan and Russia, testifying its truth. It is true that the use of magnet for a very long time may give harmful effects.

In the human body, there is magnetic power. In Hindu culture, respect is shown by bowing down and touching the feet. As stated earlier, north pole of magnetic power is towards the head and south pole is towards the feet. Therefore while showing respect as above there is a meeting of the opposite poles. Persons of greater esteem have more developmental and influential rays of magnetic attraction. This is why we bow towards

such persons. On this also there have been many experiments in the western countries. This has also been established that magnetic treatment can help in curing diseases in man, animals and also plants. This treatment helps in developing internal immunity to fight diseases resulting in the control of diseases. Like in other countries, in our country also magnetic treatment is being widely used and its efficacy is getting wider and wider recognition. This is really very encouraging. Today, because magnetic treatment is very easy, natural and cheap, it is becoming more popular as compared to traditional medical treatment.

As on man, magnetic influence has its effects on other animals. In America, experiments on animals, have established that magnetic treatment on pregnant animals, reduced their pain during delivery. when south pole of the magnet is applied, Life prolongs if magnet is near. Magnet has power to check bad cells in cancer patients. It has been seen that an old rat becomes young when kept under the influence of magnetic power. It has also been seen that magnet can effect earlier birth in eggs. Agricultural researchers have shown that magnet helps in earlier germinations of seeds. Fruiting is also profuse if treated magnetically.

WHEN HUMAN BEINGS COME UNDER MAGNETIC AREA.

- 1) Magnet influences the iron cells in the blood. This improves the blood circulation for good health.
- 2) Magnet helps in alleviating pain, when kept on the part having pain.
- 3) blood vessels get strengthened and widened with

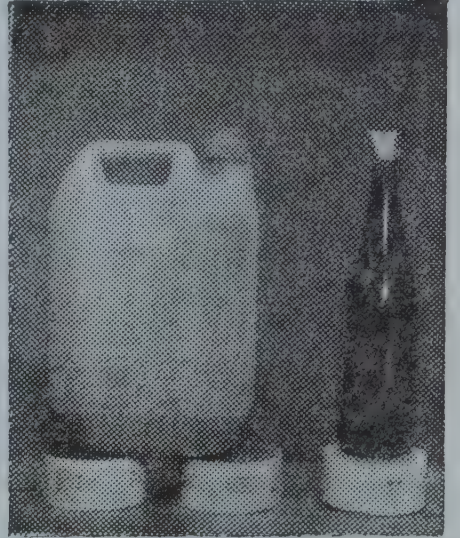

the result that immunity in the body develops to effectively fight the disease.

- 4) Purifies the blood in the veins, the veins are cleared. Flow of blood is proper because of purification. There is no heaviness in the body because of this.
- 5) One remains young for longer time. Agility and energy increase, working power increases. The skin is clean and bright, pain vanishes.
- 6) With magnetic treatment any disease can be cured fully by long application.
- 7) Magnetic treatment keeps up the health of healthy persons for a longer time.
- 8) Like poles repel. Opposite poles attract. If this fact is known, magnetic treatment becomes easy to operate.

From the above, it will be seen that persons can keep themselves free of diseases by magnetic treatment. Mind can be kept unruffled. Diseases can be effectively treated. Earth is a big magnet. Therefore living beings and vegetation are directly connected with the same. Magnetic treatment is a natural one. Therefore, it is a blessing for the eradication of diseases.

MAGNETIC CHARGED WATER

After many experiments, it has been established that magnetic water if taken daily prevents diseases and cures any existing disease. It prolongs life and keeps one energetic. It makes the skin smooth and bright. hair turns black, digestion improves and appetite increases. It keeps balanced body heat. Urination is easy. Bowel gets cleared with no constipation. It purifies blood. It helps in sound

sleep, cold vanishes. Gas is checked if this water is taken before meals. Digestion improves if taken after meals and one feels energetic for work. Ulcers in the mouth disappear. This water dissolves stones in the stomach. It is very necessary to take magnetic charged water along with magnetic treatment, as this water helps in early cure of disease. Diseases connected with menses are cured by regular intake of magnetic water.

In Ayurved human ailments are divided into three symptoms.

- 1) Cough symptom:- Normally it is seen right from the childhood.
- 2) Spleen symptom:- Normally it is seen in the younger age.
- 3) Rheumatic symptom:- This is evident in older age.

In the first, cold affects the person more than heat. Therefore, he needs to take magnetic water, which has been charged by both north and south pole of mag-

net by mixing the same.

In the second, if digestion is not proper health deteriorates more than any things else. such persons can increase his digestion power by taking magnetic water charged by north pole.

As regards the third, the persons are generally affected by cold. Such persons suffer from severe pain in various parts of thair body. such persons are required to take magnetic water charged by south pole, which will efftively relieve him of pain. while preparing magnetic charged water, it is essential that ten gram of silver, ten grams of copper and five 'Rudraksha' have to be put in the water. This type of magnetic charged water if taken serves to cure blood pressure, rhematism, polio, mental pressure, leprosy. all difficulties in digestion urinary troubles, heart troubles, etc.

Magnetic water is a type of tonic. Body energy is activated by its intake. Rheumatism, paralysis, troubles of bowel etc, can be effectively checked by its intake. If mouth is washed by this water, ulcers in the mouth disappear and mouth is fresh and clean.

If the eyes are washed with this water, all eye troubles are healed. If there is a 'tick' in the eye two drops of this water in the eye can remove the same.

Method of Preparing Magnetic charged water:

There are two poles in a magnet. The effect of both the poles is different. As per over-tendency in the body and suitable to it, magnetic water charged by either pole should be taken. Many times, water charged

by both the poles has to be taken. while preparing magnetic water, the magnet has to be kept on wood. for 12 to 24 hours.

Magnetic water charged by north pole requires a clean white bottle or a white plastic pot. Normal water has to be cooled after boiling and then filled in the bottle or the plastic pot. The openings have to be closed tight. Then the bottle or the pot has to be placed on North/South pole of the magnet. The length and breadth of the pot or bottle must not be such as to out of the magnetic attraction area, we have magnets having attraction area of 10 " x 14." Outside the attraction area, the power of the magnet does not work. Water thus charged by both the poles have to be mixed in equal proportions. Healthy person, should take water charged by north pole of the magnet.

Quantily to be taken.

Children upto 6 months should be given two drops. Children of the age between 6 months to 3 years should be given 10 drops. Children between 3 years and 7 years of age, one tea spoon full, Children between 7 to 16 years of age, 1 /2 a cup, persons above 16 years of age one cup of water. This has to be taken four or five times a day, which will benefit them. Before taking any food in the morning. this water should taken it will help in clearance of motio by removing constipation, gas and like diseases and the body will become energetic. This water should be taken at the time of two main meals. Apart from this, if taken at 3 P. M. in the day and at the time of sleep in the night, this water helps in building body strength and good health. It is helpful to take

this water every day at the interval of 3 to 4 hours. After the intake of this water, no cold drink should be taken. Similarly during the period when this water is being taken, no ice or ice-cold articles of food should be taken.

If bath is taken with this water, skin diseases disappear. This water cures pyorhea and other diseases of teeth also.

Children between two to Ten years of age should be given this water. This cures many diseases. I treat children with polio by giving them magnetic charged water. After a month and a half such patients get the strength in limbs to walk by taking this water. After such strength, magnet is applied on the body and the treatment continues.

Children having some urinary troubles, should be given this water mixed with ordinary water in equal proportion, every 10 to 15 minutes. Within a day or two the ailment, if any, is cured and easy urination becomes possible. It is my experience that if there is any swelling, with the intake of this water for 6 or 7 days, the same is healed.

If cow or she-buffalo is given magnetic water, they give more milk. Dr. Umale of Punjabrao Krishi Vidyapeeth has proved this by experiment. Flowering and fruiting is also more, if this water is given to the plants and fruit trees. Small plants grow very fast if treated with this water. Extensive experiments on this have been made in America and Japan. Boiled milk after cooling, if kept on a powerful magnet for two hours, gets

magnetically charged. If this milk is taken it creates tremendous energy in the human body. Similarly, if fruit juice is kept within magnetic attraction area, its quality gets improved. Coconut or Til oil if kept on the magnet for three days, it gets magnetically charged. If such oil is applied on the hair, its fall or getting grey is checked. Not only it helps in the growth of profuse hair but it also prevents hair becoming grey, rather, grey hair turns black. Such oil should be applied for at least six months.

For preparation of magnetic charged water; use of copper pot is more beneficial. Water in such pots coming within magnetic area, gets its physical and chemical properties considerably changed.

If magnetically charged water is put in the water pipe, all impurities are cleaned. In the radiator of motor cars, magnetic water is very helpful. In cement concrete, if this water is used, concretization is strengthened more than normal concretization. On an average 30% to 40% more strength is obtained.

In Soviet Russia, in all public hospitals, magnetically charged water is used. If in our poor country, magnetic water is used in public hospitals, it would be very much beneficial to the patients. If villagers are provided with this water, they would be immensely benefitted and it would be a blessing to them. I sincerely request our Government to introduce magnetic treatment, which is really very beneficial. Introduction of this treatment by the Government will make it popular in the interest of welfare and health of our people, I expect the Government will do the needful to popularize this method of treatment.

MAGNETIC AREA IN HUMAN BODY IS AT PLACES GIVEN BELOW

- 1) Right side of the body – North pole
- 2) Left side of the body – South pole
- 3) Upper side of the body – North pole
- 4) Lower portion of the body – South pole
- 5) Front side of the body – North pole
- 6) Back side of the body – South pole

WARNING :- On the swollen part north pole of the magnet and on the opposite part south pole of the magnet should be applied.

INSTRUCTIONS ON MAGNETIC TREATMENT AND PRECAUTIONS TO BE TAKEN

- 1) Magnetic treatment should be taken either before taking tea or after taking a bath in the morning. After magnetic treatment, bath should not be taken for two hours.
- 2) Magnetic treatment creates heat and therefore no cold drink should be taken for half an hour. Hot drinks can be taken.
- 3) Immediately after meals magnetic treatment should not be taken. This may results in giddiness and nausea. After one hour of meals, treatment can be taken.
- 4) Magnet should not come in contact with the watch.
- 5) Normally magnet applied on the body does not create any adverse effect. Continued use of magnet if results in giddiness or heaviness of the head etc, should; immediately be stopped.

- 6) Powerful magnet should not be applied to pregnant women, children or upon delicate parts of human body like eyes, head etc.
- 7) It is not necessary to remove gold ornaments when magnet is used.
- 8) If wrong magnet is applied and there is adverse effect, immediately either a zinc plate or a tree should be touched. Use of homeopathic medicine Zincom Metalicom is also advised in such cases.
- 9) Two opposite poles of powerful magnets should not be brought near as it may result in finger being sand-witched.
- 10) Magnets available with us have stable magnetic power. They do not require keeper for its stable power.
- 11) Application of magnet should be done by sitting on a wooden plank or stool. while using it, iron or earth should not be touched.

HOW TO SIT WHILE MAGNETIC TREATMENT IS GIVEN :-

Our body has magnetic directions. Therefore it is important that patients should sit in a particular manner. While applying magnet, north pole should be towards the north, and the south pole towards the south. When two magnets are used, the patient should sit facing the west whereby patient's right side and hand will be towards the north and the left side & hand towards south. This will be more effective.

SOME PECULIAR REACTIONS :-

If a highly charged magnet is applied, some-times,

there is likelihood of getting deafness sweating, heaviness in the head and heat to the patients. But there is nothing to worry. After resting for sometime, the magnet should be applied. As per the endurance of the patient, the magnet has to be applied to the body. There is no other reaction.

There is no special course for magnetic therapy. It has to be continued till the patient is cured of the ailment. For complete cure, good health and long life depend on the strength of the magnet. There are no side effects in Magnetic therapy.

COMPARATIVE STUDY OF TWO MAGNETS

MAGNET 'A' PLASTIC CASING TYPE

MAGNET 'B' STEEL CASING TYPE

The map of lines of force for Magnet A was drawn by keeping its North pole towards North. The neutral point was obtained at about 18 '' from the centre of the magnet in front of the pole.

The map of the lines of force for magnet B was also drawn in a similar manner. It was observed that both the poles, North as well as south, are present along one side which was marked as North pole. The neutral point for this magnet was obtained at about 7'' from the centre of the magnet along side ways.

From the study of the magnets it appears that magnet 'A' is simple bar magnet type magnet and magnet 'B' is E type magnet where the two ends forming ring is south pole and North pole is at the centre.

I have observed that if the magnet is closed on one side, both the poles come to one side i. e. the pole that is closed. Settels on the rim of the disc like magnet. Thus the magnetic field active on the patients body forms a short but powerful circle. but I can't get the desired results effectively from such types of magnet. I found that water prepared with these magnets do not give any good results.

On the contrary, I have observed that the water prepared on our terite magnets is infact a single pole water and thus gives better results. The application of these magnets on the patients body produces. Low power lengthy circuit on his body and shows the best results.

EXAMINING THE PATIENTS BY USING ACUPRESSURE METHOD

This method is very useful and practicable. by the patients in knowing his own elements. Where the magnets are to be applied. There are thirtyeight points on our palms and flets. and the patient can learn to press these points of his own. If he feels pain on that particular point he should know that the pain lies on the part of the body shown against each point in the pictures given on pages 30 to 35 He should apply the magnets there as directed in this book. This will cure the patient of his disease or ailment speedily.

Shri. PRAKASH VASUDEO TEKADE,
AKOLA

I had migran since March In the begining I took homeopathic medicines. Later on I took medicines prescribed by five or six doctors practising Allopathy. There was no change. Later on I had such a severe headache which I could not bear. Dr. Kakasaheb Choudhary told me that I was suffering from Siusitis Tears come down from my left eye continuously. He treated me for 10 days. The treatment helped me and my headache became less by almost half. Todaysince last 20 or 25 days. I am under ceramic magnet treatment Since 20 days, I am completely free of headache I have stopped completely, taking Allopathic medicines.

I have been suffering from osteo Arthritis since 2

and half years. I have taken several medicines including indigenous medicines and Ayurvedic medicines. Many other treatments I had experienced but to no effect. Rather during winter my sufferings increased.

But since I had started treatment of Magnetic Therapy by Shriman Rathiji, I felt comparatively easy. Within 15 to 20 days of treatment, my trouble subsided by 70% to 75%.

Shri SHYAM BEHARILAL

Since early days I had breathing difficulty, later on I developed spondilitis. Took traction but after some time I got subsisting pain in the hand before two years.

Because of this I continued to have pain in the chest and in the hand. Dr. Kibe's treatment gave me some relief But pain occurred again. Medicine allevated the pain but it occurred again. After one month I got pain again in left hand and legs. I could not place my foot on the ground. I took magnetic treatment within 4 days pain subsided in the hand and legs. I am now well.

Since last 4 years, I was a patient of epilepsy Every 15 or 20 days, I was most uneasy for 3 or 4 days. Not only this, every month and a half, I used to be unconscious. From 5-12-82, I started magnetic treatment. within 10 days of this treatment, I did not get the attack which I used to get every 15 to 20 days. Even the time when I used to be unconscious, passed away without it. The treatment is still continuing. I take magnetic water every day. I used to get pain in the back when I got up after sleep in the night, which made me uneasy. Now after treatment by magnetic healer, pain has subsided to a great extent. Treatment is being continued.

Shriman Rathiji having started this service has rendered great help. I had the privilege to see different magnetic treatments and their effective results on various diseases of the patients. I sincerely pray to God that Rathiji gets more and more success in his sincere efforts.

Since nearly two years I was in trouble because of cold abscess. Two years ago, on the left side of my neck there was a node (swelling) and it started growing and slowly the node was quite big. I was indoor patient in Jaiprakash Narayan Hospital for three months. Operation was done at Indore and the tumor was taken out. Since

last 6 or 7 months on the right side of the neck similar tumor came up. From Bhopal I went to Indore where the surgeon of M. Y. Hospital after examining me advised to come a month and a half for operation. Looking to the long time and also because of unbearable pain I came to Akola, I was thinking of consulting some prominent doctor, when I got information about magnetic treatment of Shri Punamchand Rathi I went to him. It is now 20 or 22 days of magnetic treatment. I have got 70% relief I am so confident of this treatment that my faith in other methods of treatment has almost been evaporated.

I met Rathiji for the first time at Nasik. He had brought with him various types of magnets and other accessories for treatment. He was explaining the merits of magnetic treatment to some people. we were attentively and enthusiastically listening to his discourse regarding

magnetic treatment. Many told him of the disease they were suffering from. I felt convinced that Shri Rathiji has with him the ability to cure various diseases easily. The treatment is cheap and has no other adverse effects. My daughter aged 14 years had pain in her back since one year. Shri Rathiji demonstrated openly how the magnetic treatment was done. I took the magnets for treatment. After a month's treatment, her pain on the back disappeared and now she is completely alright. I also took magnetic water after seeing the effect of magnetic treatment. This resulted in eradication of bodily pain and reduction of depression of mind. Having experienced this I thought of starting a centre for Magnetic treatment at Baroda. I came to Akola and enquired from Shri Rathiji about this. He readily agreed to our suggestion and gave us permission with enthusiasm. We saw personally the various experiments of magnetic treatment. In the talks about the effectiveness of the treatment from patients, they informed us how the treatment was very effective. This enthused me and my wife and gave us confidence that we can successfully run the centre at Baroda if we start one and make the treatment popular.

Shri PRAKASH JAGANNATH CHOUDHARY

I was introduced to Shri. Rathi when I was medical officer P. H. C. Ural. I also found a few cases at Ural who were treated and cured by Shri Rathi by Magnetic treatment. I was very eager to see the centre and then visited his centre very often.

I observed various types of patients at his centre who were relieved by this treatments. Particularly the cases of Rheumatism, Arthritis, Lambago, Sciatica Paralysis were much benifited by this treatment The work of magnetic treatment resembles that of Massage treatment. Shri Rathiji is treating the patients free of cost. His enthusiasm at this age is praiseworthy.

I wish him great success in this work.

I think that Magnetic therapy is very useful for all. I observed that Magnetic treatment given by Shri Punamchand Rathi. While talking with patients I realised that they have recovered of their various diseases.

My sister was also suffering from slip disk. She was given the proper treatment by doctors & advised bed rest, but there was pain in spinal cord. She was unable to sit for 15 minutes continuously. In the meanwhile she had to appear for her Examination while solving the papers. She used magnetic belt at her spinal cord & miracle took place that she could solve paper without any pain. This is my own experience.

Now we have decided to use the magnetic treatment in Gonda district. (Uttar Pradesh)

My best wishes are with Shri Rathiji.

The Types of Magnets Used in Our Centers

We have an experience that many persons who want to try magnetic therapy, purchase magnets which are commonly available in the market. But many cases it was found that they did not get the expected results. It was found that the magnets they purchased were defective, besides there poles were not properly marked, and sometimes wrongly marked. In order to avoid such difficulties we have decided to supply the magnets. The magnets we have undertaken to supply are tested by us and give full guarantee about correctness of poles according to the book written by Albert Roy Devis of America.

Besides usual magnets we have prepared some special devices which would be useful in particular type of the diseases. Many person have such magnetic appliances very handy and useful. In many apparatus specially prepared magnets with low potency are used in such a way that both the poles come in contact with the body and give effective results.

1) High Power Magnets :-

This magnet has a gauss of 1500 power and its wave length is 12" x 22" It can lift the weight upto 5 Kg. It used in the treatment of cancer and cases of burning.

2) Powerful Magnet :-

This magnet has a gauss of 1000 power and its wave length is 10" x 14" and can lift weight upto 2 Kg. It is widely used to cure general disorders in the body, except the brain. It is used to prepare magnetized water.

3) Ceremic Magnet :-

This magnet has a gauss of 250 to 300 power. It is used in the treatment of eye, ear, nose and throat. It is used to bring sleep and also used to increase the height of the body of the children.

4) Magnetic Roller :-

By the use of this magnet as a massager, helps to remove pains. It is used in the heart diseases too. It helps to subside the burning sensation in case of insect bites such as scorpion. It is rolled from the points of the sting down wards. We have experienced that it's very useful in travelling.

5) Blood pressure belt :-

In high blood pressure it is tied on the right hand wrist, and in the low blood pressure on the left side. In case one feels heaviness in the head, the belt should be removed. It should be applied again after 6 to 8 hours. It regulates the blood pressure to normal.

6) Belt used for knee and neck :-

When suffering from any kind of pain in the knee or neck, this belt should be tied round the part affected.

7) Belt for the Head :-

This belt can be tied round the skull. It is used for the removing the blood clots and head-ache.

8) Belt used round the waist :-

This belt is of two lines. It is very useful in the treatment of slip-disc.

The four lined belt of this type is used for the treatment of liver, kidney diabetis and heat pains. It reduces the fatness.

9) Magnetic cap :-

By using this cap one is relieved from all kinds of the brain troubles.

10) Magnetic tablet like small disc :-

It removes head-ache, brings sound sleep and removes the pimples on the face.

11) Necklace of Rudraksha and sphatika with Magnet :-

By the use of this necklace one can control heart troubles, diabetis and blood pressure.

12) A neck lace made of beads (Plastic and Magnet)

Mainly made for the women which can contract the chest troubles.

13) Victic Machine :-

It is developed from the experiments conducted by A. E. Banis. He found many egyptian holding rods in hands. After many years experience, it was found that the rods in the hands are carban and iron, rod converting into magnet. It was found useful in ageing process and nervous break down. On this principle apparatus is prepared.

Victic Machine (Methods of using) :-

A) Hold the carbon rod in the right hand and the copper rod in the left. In cases of low blood pressure, mental, fatigue, body fatigue, loss of vitality, loss of blood, this should be practiced for 15 minutes.

B) Hold the carbon rod in the left hand and the copper rod in the right, for 15 minutes in case you have high blood pressure, diabetis palpitation of heart, rheumatism, loss of sleep, excitement, insomnia and fever.

14) Magnetic healer :-

It is used in Asthama closed valves in the heart and chonic pains in body.

15) Magnetic jacket :-

It is used in any ailment in the trunk, creating magnetic low power field all over the trunk giving relief from any sort of ailment. It creates magnetic field upto two inches in depth of low power.
